ALL INDIA INTER AECS U-14 BOYS & GIRLS CHESS TOURNAMENT, QUIZ AND HINDI DEBATE COMPETITION 2023
1st to 4th November 2023

It's great pleasure to get an opportunity to host All India Inter AECS Chess, Debate and Quiz Competition at National level. Atomic Energy Education Society, Mumbai introduced Chess competition at National level in 2022, along with other Games & Sports event to promote creativity and imagination among young scholars of AEC Schools across the nation. More than fifty students from AEC Schools are participating in the above events.

Hindi Debate and Quiz are conducted at zonal level followed by National level to provide an opportunity to students to develop public speaking skills, critical thinking skills, communication skills, creativity, etc. Toppers at Zonal level from North, South, East & West Zone participate at National Level competition. It's a great platform for displaying and developing the high order of intellect - instinct among young future citizens.

These events drop a great impact on cognitive domain. Scholars develop various skills when they prepare and present such activities. Problem solving skills collaborating skill and thinking skill development are the most important outcomes of such events. Analysing and applying knowledge in other areas are basic output of these events.

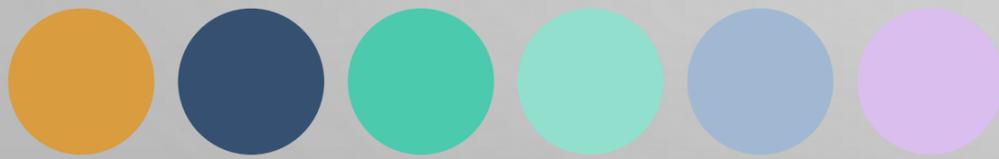

Sincere effort has been taken by AECS-2, Tarapur team to organise national level event under kind and generous support of Local Management, AEC Schools, Tarapur. Special thanks and greetings to organising team and Local Management Committee for their active support.

I greet all participating students and their guide teachers of all AEC Schools, with special wish for and pleasant stay.

Dr. Anand Kumar,
Principal, AECS-2, Tarapur
